641-424-0065

Financial Assistance Available with qualifying income.

Charlie Brown Preschool

Dear Families,

We would like to welcome you to our Preschool Program. Our Program is from 8:30am-12:30pm including breakfast and lunch, Monday through Friday. Instructional time is from 9:00am-11:00am Charlie Brown Centers have Preschool rooms: ages 2-3 years, 3-4 years, & 4-5 years. The child's room placement is determined by the child's birth date of September 15th.

Each room has a college degreed staff with at least 15 hours of child care training. Each staff is certified in First Aid, Infant, Child, & Adult CPR, and Universal Precautions.

Our Preschool curriculum is a play based and creative curriculum of learning. Play helps a child learn about her/himself and what she/he can do; learn about others; and learn about her/his environment. Play helps to establish friendships and helps to express feelings. We incorporate Creative Curriculum from Quality Preschools Standards Training for our curriculum. Each week we center around one main study with activities that teach the seven domains of learning: language & literacy, mathematical thinking, scientific thinking, social skills, the arts, and small & large motor skills.

Each month we send home a brief newsletter and calendar describing what your child will be learning and any additional information you will need to know for that month. Three times during the year we will be sending home a checklist on your child's development: fall, winter, & spring. We offer conferences at these times as well. We will also be collecting projects throughout the year for a portfolio to show your child's growth.

In order to enhance each individual child's development, a variety of experiences are planned. We have several special events throughout the year such as celebration parties, seasonal musical performances, Grandparent's day, spring play, science fair, and graduation. Field trips are planned through out the year as well as community member presentations. We are a partner with the YMCA in the "Kid Fit Program" which meets every week for extra fitness.

Our Preschool program has an open-door policy and we encourage you to visit as much as you wish. We believe that the key to developing a program for young children is frequent communication between parents and center to benefit us all.

We believe that a quality program for young children should promote and maintain growth in self worth of each child. It is our goal to help the children in our care to become caring human beings.

If you would like any additional information, please let us know.

Thank you so much for considering our program!
